

Renault 8-pins Bluetooth streaming interface incl. Carkit function & AUX option

Art. Nr: BT-REN-8P

DESCRIPTION

General

With the NavInc Bluetooth interface it is possible to stream audio through every smartphone or tablet and to connect these devices with the original radio- and/or navigation system of **Renault & VDO dayton**. The interface makes use of the original CD changer connection port.

Beside the interface is equipped with a Bluetooth carkit function.

Features:

- Connect your Bluetooth device wireless with the original radio/navigation system in CD quality
- Charge function through USB port
- Compatible with Apple, Android, Windows & Blackberry smartphones
- Automatic Stop-Play function when switching from iPod to FM/CD/Tape
- Controls of connected device via original steering wheel controls (when available)
- Controls of connected device via original radio/navigation buttons
- Controls of connected device itself
- Extra audio input via jack 3.5mm (MP3 or notebook)
- Supports music streaming via A2DP Bluetooth protocol
- Supports controls via AVRCP protocol
- Plug & Play cable kit
- Bluetooth carkit function (with controls)
- Automatic Stop/Play function with incoming calls

BLUETOOTH STREAMING FEATURES

Wireless connection via Bluetooth for audio streaming via A2DP complete with charge function possibility (via USB port).

When the source supports AVRCP technology it is even possible to control the connected source via the original radio- and/or navigation system. It is also possible to control via the device itself.

Control options:

- Next track
- Previous track

- Volume +
- Volume -
- Fast forward

Controls also works with Apps like Spotify and Google Play.

AUX INPUT FEATURES

External AUX input via 3.5mm jack connection for connecting external audio sources such as:

- Notebook
- MP3 player
- DVD player
- Etc.

BLUETOOTH CARKIT FEATURES

The NavInc Bluetooth interface is equipped with a carkit function with control functions and automatic Stop/Play function with incoming calls.

Features:

- Carkit function with automatic Stop/Play function
- Automatic synchronization of phone with Bluetooth interface
- **Optional** microphone with echo- and noise reduction
- Automatic mute function (only in CD changer mode)
- Accept, deny and hang up conversations via radio buttons
- Audio of conversations via original sound system

USB CHARGING FEATURES

The NavInc Bluetooth interface has a USB port for charging connected devices.

NOTES

- Check tab 'Compatibility' to see if the interface is suitable for your radio- and/or navigation system
- Audio streaming and carkit function only works on interface level (CD changer level)
- Controls of connected source only possible when device supports AVRCP technology
- USB port on device is only for charge function
- ID3 tag (text) support is not possible

Radio- and/or navigation systems with 8-pins mini ISO changer connection

All VDO Dayton radio systems compliant with CHM 604 MP3 changer.

Tested on the following radio- navigation systems:

MS 4150 RS

MS 4200 RS

MS 4100

MS 4200

Renault

Clio 2001 - 2003

Clio 2003 - 2005

Clio 2005 - 2009

Espace 2000 - 2002

Espace 2002 - 2006

Espace 2006 - 2010

Kangoo 2001 - 2003

Kangoo 2003 - 2005

Laguna 1991 - 2001

Laguna 2001 - 2005

Laguna 2005 - 2007

Laguna 2007 - 2010

Master

Megane 1999 - 2002

Megane 2002 - 2006

Megane 2006 - 2008

Scenic 2001 - 2004

Scenic 2004 - 2007

Scenic 2006 - 2009
Traffic 2000 - 2009
Twingo 2000 - 2002
Twingo 2002 - 2004
Twingo 2004 - 2007
Twingo 2007 - 2011

Other models with 8-pins radio- navigation system.

*Only in combination with the following radio- navigation systems.

Tested on the following radio- navigation systems:

Tuner list CC & CD
Cabasse Auditorium
Update list CC & CD
Carminat 2+ CD navigation systems

Remarks:

- Only for radio- and/or navigation systems with 8-pins mini ISO changer connection
- Other models of radio- navigation systems we do not have (yet) test results
- When model type is mentioned, please also check your system at 'Compatibility' tab
- When you doubt about compatibility please contact NavInc
- Original CD changer will be disconnected
- No text support
- Skipping folders is limited to amount of optical CDs the original radio can handle
