EXCLUSIVE CAR FEATURES

Features:

- NAVplay input
- 1* HDMI input
- Audio/Video input
- Reverse Camera input
- Front camera input
- Image retention while driving

- Adjustable parking lines
- Intelligent Park Assist System (IPAS) - moveable parking lines

Activation via OEM

Activation NAVplay via original "NAV" button

Touch screen

Control the NAVplay system via the original touch screen.

CAMERA FEATURES

Picture in Picture (PiP)

Via the camera input of the interface an aftermarket camera system can be connected to the navigation system. The camera image will be displayed automatically on the screen when the car is put in the reverse gear. The camera input knows 2 views:

- 1: Camera with Picture in Picture of the Parking assist
- 2: Full camera view

Parking guidelines

In the camera image on screen parking guidelines can be displayed. This makes it much easier to determine the distance to the object you are driving towards. The guidelines are adjustable horizontal as well as vertical so the lines can be adjusted to the car.

Ajustable guide lines

Intelligent Park Assist System (IPAS)

The interface have also the Intelligent Park Assist System (iPAS). With this function the guidelines will respond on the steering wheel position. The guide lines are adjustable horizontal and vertical via the interface OSD menu.

Front camera input

The front camera input will be activated after leaving the reverse gear. The camera will switch OFF automatically after 10 km/h or when you press the NAVI button.

NAVPLAY

Customize

Download your favourite Apps via the Play Store or APK uploader to customize your NAVplay, like;

Video: Youtube / Netflix / Ziggo / Proximus / Videoland

Music: Spotify / Sound Cloud / PODcast

Navigation: iGo / Waze / Goolge maps

Radio: Radium for Internet Radio / Nederland FM / Radio.net

Communication: Skype / Carplay / Android Auto

Customize your own home screen via the Quick Launch menu

Navigation

Dowload your favourite navigation system like;

iGO

Goolge maps

WAZE

Media

The NAVplay is equipped with several media inputs such as;

Bluetooth streaming

Dual USB 2.0 input (media)

Micro SD slot (up to 64GB)

Audio output via RCA

Audio output via Bluetooth

USB OTG input

Internet

The NAVplay is equipped with a WiFi connection that can be connected to the Internet. In addition, it is also possible to create an 3G/4G Internet connection (via the uSIM slot).

Carplay

Upgrade your NAVplay with CARPLAY to your existing system. You can run apps from your iPhone Via CarPlay without touching your iPhone. You can control this Carplay kit via the NAVplay and via voice control (Siri).
